Prewitts of Central Kentucky posting

I've reached out to the descendants of Robert and Martha Chandler Prewitt on their facebook page (linked below). As I understand, Robert's father is Michael, son of Andrew Prewitt. If so, we may share the common ancestor, Henry of Henrico. I'm hoping to share my DNA results with a male Prewitt of Robert's line. This would be another piece of the puzzle for the Henry line, unless another member here has made this DNA connection already. If you are a member here, and can help "broker" my request on their page, please let me know.

Ron, I uploaded Richard A. Prewitt's book on Michael, Sr. This is a massive book of over 800 total pages with an incredible number of names and stories, etc. The Prewitts on that website might be interested in it,

Thanks. The website administrator has offered to post my DNA comparison request on the the website. I'll share results if I get any "takers."

That good news, Ron. You only need one to test. If they are related to Michael, their DNA should match yours pretty closely. Family Group C is our largest family group and we have a solid idea of what Henry's DNA markers are.
