Samuel Pruitt I

Hey Bill -

Is there any DNA evidence to support or rule out either of these couples being the parents of Samuel Pruitt I?

Henry Prewitt (1654-1722) and Ann Field (1658-1691)

OR

John PruittPrewitt (1648-1704) and Sarah Lessene (1662-)?

Thanks,
Karen

Sorry, I guess there's no way to delete my duplicate line!
Took care of it - Bill.

Henry Prewitt has been shown to be in a separate line from Samuel based on DNA. Henry is the most distant common ancestor of Group C; Samuel is the most distant common ancestor of Group F. John Pruitt (b. 1658) is a mystery. I don't think any one can claim him in their family group. I also don't think there's any evidence he married Sarah Lessene. I talk about this issue on my web site ([pruiett-parker.com/pruiett.php](#) - see paragraphs 3 and 4). If anyone else wants to comment, please don't hesitate.
