Thank You!

HUGE thanks to John W. for getting me on track with my DNA results. You're the best man.

Ron, your DNA has been added to our Family Group C(Henry Prewitt) and is an exact match to three of our members at the top of this group. Your MRCA, like William Pewitt, shows up as a 2, but really should be a 1, if the 46 marker test was done.

The DNA in Group C is very slow moving and shows very little mutation over time unlike our other groups. The top five members of this group have four different surnames, but your DNA is identical and makes you look like brothers.

Ron, you can put FamilyGroupC (one word) in the search tags field at the top right of the project and get all the discussion items and files for Family Group C.

Ron G Prewitt
