## Renney Pruett-Belue

Anyone descended from Thomas Prewitt Jr that match Group C DNA, I am from the Renney Belue-Pruett line, any info would be interesting.

### Comments

**John W. Pruett-VA DF13** May 5, 11

Phil, the Renney Belue Timeline file by Helen Burcham and the New Evidence on Renney Belue file by Ron Mitchell in our file section are excellent starting points of information on Renney Belue (Pruett) and Thomas Prewitt. Perhaps there is new information not listed.

Phil, your DNA results are now in our Family Group C. I compared your FT 37 markers to Paul Pruitt in Family Group C who can trace his family back to Henry of Henrico. Ancestry only used 32 of your 37 markers in their DNA database and you showed only one mis-match from Paul Pruitt on marker DYS 458. The 14 MRCA you have is misleading because I feel if you were retested using the Ancestry 46 marker test your MRCA value would drop close to Paul's. When Paul was retested using the Ancestry 46 marker test he went from a 18 MRCA to a 6 MRCA. Both of Paul Pruitt's tests are in our Family Group C.

You have a well documented paper trail back to Thomas Prewitt so you should be very close to all the people in this Family Group. There are other surnames who are close to you according to your DNA. These other cousins are Cardwells, Attaways, Farmers, and Chumleys. At the present time, I don't have documented links how these people are related to this Prewitt family line. Maybe others can comment on how these other families are related to the Prewitts.
