Welcome, John Thomas Prewit !

Welcome John to our Pruett/Pruitt/Prewitt DNA Project. I see that you are the cousin of Carol Wootton. From your DNA you are the second person to belong to our DNA Family Group E. It appears that William Pruitt(1714-1817) is the oldest ancestor right now in this group. Your William Pruitt(1714-1817) is definitely not from the Caroline County Pruitts like some people thought. The Caroline Pruitts are R1b1a2a1a1b4.

Your DNA of 33 markers was manually entered from FT. Similar to others who also manually entered their FT DNA, your MRCA number will be higher than is the actual case. You show a 12 MRCA from Jim Pruitt in Family Group E, but there are only two slight differences at DYS19a(15 vs 14) and DYS458(17 vs 16). I would think that you are similar to Group B, in which Michael and McKay Pruitt had their DNA manually entered, and are actually very close to the four people who have identical DNA.

If you had been tested with the 46 DNA marker test, I would guess you have a real MRCA in the 6-7 range which matches the paper trail you and Mary Zashin have to William Pruitt.

I hope you will find our site interesting and informative and will post your line.

We are working on a second website which has some discussion items and files on just your Group E.

Terrific job, John. Thank you so much for making it work. I am so excited about this website and all that you and the subscribers do to make it so informative. Also, delighted that my cousin John Thomas Prewit finds himself in DNA Group E and that Mary's Cousin Jim is no longer alone ! :-)

UNABLE to get the site to show DNA numbers and I only can see a 2032 error code. For many many days. Ancestry does not seem to be able to fix it. I have also tried to get my 46 marker results from Ancestry to post with no success on the page.

Carol Wootton Jul 13, 12

I've had the same problem...it has been going on for days, maybe weeks, now. Sure hope they get this fixed!

John W.Pruett-VA DF13 Jul 14, 12

I reported the problem to [Ancestry.com](#) with the error message=2032 this last week, but so far they haven't fixed it.

Carol Wootton Jul 14, 12

Thanks for reporting this problem, John
